ETFE Protective Coating

0.5Kg / 1 LB Light Weight

Adjustable

Match your environment

Charge your smartphone, tablet, power bank, digital camera or any other 5V travel accessory. With leading technology and 23% high conversion rate, your portable solar panel is ideal for all consumer electronic devices during peak sunlight hours.

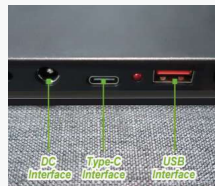

Wide compatibility across consumer electronics the mini solar panel is ideal for hiking, camping, fishing, outdoor and weekend trips. Lightweight and only 464grams with a folding design, similar in size to a A4 notepad, it's always ready to grab and go.

Our portable solar panels are built to handle any range and all surroundings, wet, dry, dusty, or humid. IP67 waterproof rating and a protective ETFE film, our solar cells charge even during rainy downpours.

Compact

Light, compact and easy to carry, perfect for the outdoor lifestyle.

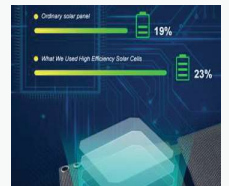

Advanced

Technology to match the demands of the market. Qualcomm Quick Charge, Power Delivery and DC Output has you covered.

Function

Charge all your 5V devices while on the go. Waterproof

ETFE

High energy efficiency conversion with more light absorption. High light transmittance material

PRODUCT SPECIFICATION:

Model	PNCE25W
Rated Power	25W
Power Voltage (Vmp)	105.0 W
Working Current (Imp)	5.4A
Open Circuit Voltage (Voc)	24.5V
Short Circuit Voltage (Isc)	6.8A
Cell Type	Monocrystalline silicon
Cell Efficiency	23%
Dimensions folded	181×273×27±3mm
Dimensions unfolded	545×273±3mm
Weight	0.46kg
Connector type	USB-A, USB-C, DC5521
Waterproof	IP67

POWERNATION

Product code:
PNCE25W

EAN code:

Retail Box – 1 unit
Dimensions: 18.1x27.3x2.7CM(LxWxD)
Weight: 0.46kg

Unit Product with inner box
Dimensions: 19.6x28.8x4.2CM(LxWxD)
Weight: 0.56kg

Unit Carton
Dimension: 41.5x31x43.5CM(LxWxD)
Weight: 11.2kg
