

POWERNATION

PNP50W

SPECIFICATIONS:

Model: PNP50W Flexible Solar Panel 50W

Material: composite material FFC, EVA, Carbon fibre material

POWER PROFILE

Output Port 1: DC5521 - 19.42V/1.71^a

CONTROL PANEL

Fitted with silicon cover protecting against waterproof.

Accessories: 2M 18 AWG cable

DIMENSIONS

Panel Size: 60.0x54.6 cm

Cell size: 182x182 mm

Net Weight: 1.1 kg

Efficiency: 25%

Operating temperature: -20-65 °C

Single package format: 101.5x61.5x3.8 cm

FEATURES & FUNCTION

- Charge portable power station
- Ideal portable solar charger for disaster response, adventure, travel & camping.
- Great for camper, auto, boat, yacht

BENEFITS

- Ultra light and robust
- Compact delivering high charging capability
- Innovative IBC technology, with full black appearance, providing better performance in weak or low-light conditions.
